

300w outdoor solar light

What is a 300W solar panel?

A 300W solar panel is a common choice for homes and businesses, typically ranging from 250W to 365W. It can generate about 300 watt-hours of electricity from one hour of full sunshine.

How much space can a solar lamp light up?

FLEXIBLE INSTALLATION - Our solar lamp can be pole-mounted and wall-mounted, very flexible for everywhere. The instruction and all accessories are included in the package. Designed for 3.0 - 5.0 meter (10 - 16 feet) mounted height. When the mounted height is 10 feet, it can light up 13*23 feet of space.

How long does a solar garden light last?

LONG TIME WORK - Due to our 48,000mAh high capacity battery, our solar garden light can keep lighting up to 12 hours under fully charged condition, and the double MPPT patent charge controlling core ensures this solar light can be quickly charged even in cloudy days.

How much space can a light bulb light up?

When the mounted height is 10 feet, it can light up 13*23 feet of space. When the mounted height is 16 feet, it can light up 19*32 feet of space. **AFTER-SALE SERVICE** - We offer 2-year free replacement service and 90-day no-reason quick refund service to our customers, if there is any problem in daily use, please feel free to contact us.
