4680 Power Bank Outdoor Power Supply

offer from \$163;59.98

The LED flashlight module in a 4680 power bank is designed to provide an auxiliary light source, which is particularly useful in emergency situations or during outdoor activities. It draws power directly from the battery, offering a durable and reliable lighting solution without significantly impacting the overall battery life.

The silicone plug is secured to the rest of the power bank by a relatively thin strip that, when pulled during testing, snapped and broke off fairly easily. While the casing still works even when no longer tethered to the power bank, its waterproof capabilities would be severely diminished if it was lost or left unsecured. BioLite Charge 40 PD
