The only inverter I have found that is capable of accepting 72v is around \$1,100. That is just too much to pay. I purchased a pretty decent 72v to 12v DC to DC converter but the max on that unit is only 600 watts. This does not give me the ability to run a nice 2,000 watt inverter to get AC. So now I am on the hunt again for something that works.
