800W A all-in-one power solution, delivers unsurpassed clean true sine wave output power and combines this with a selectable multistage battery charging current. It is a high quality product that offers the best price/performance ratio in the industry. 800W Multifunctional inverter, UPS is a grid- off system. This inverter with the battery could be charged by the solar and AC power.

800w continuous power, 1600 watts peak power, 60Hz high frequency, pure sine wave power inverter that converter 24v dc to 110v 120v ac. Widely used for camping, RV, truck, car, solar power system and home use appliance.

The inverter is powered through the vehicle's battery, and the product is supplied with battery connector cables to connect the inverter to the 12V battery. The inverter works with the vehicle's battery when the engine is turned either on or off. 800W continuous power; 1600W peak power; Safely converts 12V DC to 230V AC power supply

These inverters all could be used with the 800w solar array, however, the first one will not take advantage of all the 800w power. This is called power clipping, and the inverter will just use 540w. So for this example, I will choose the HSI Plus 1000w 24v inverter since I am not planning to expand my solar panel's array anymore.
