

AA battery 48v inverter

Battery: Battery Voltage: 48V DC. Floating charge Voltage: 54V DC. Overcharge Protection: 66V DC. Important Note: When using this inverter with Lithium batteries, care should be taken to correctly size the bank, taking into account the maximum current which this inverter requires VS what the battery can deliver.

Easy to operate, safe and reliable. The customer service is also very professional and any problems can be solved quickly. Five-star praise! This energy storage battery is really ...

I have a Nedis World Receiver radio that runs for 60 hours with two AA batteries; I have ordered 180 AA alkaline batteries. AA batteries are the best power source for emergencies, since AAA costs about the same but AA has 2.5 times the amount of energy. My calculations show these are enough for 2 years. They have a shelf life of 10 years.
