[Read More](#) .

This solar street light uses a pro double MPPT core technology, which is known to be 50 to 70 times more efficient than those used by other street lighting solutions. Take into account its 12000 MAh lithium-ion battery, and you can run a street light for more than 60 hours.

Fortune CP provides innovative renewable energy products and services in Angola. These include solar components (solar panels, inverters, batteries), off-grid and grid-tie solar systems for commercial, industrial and residential applications, battery energy storage systems, energy efficient LED lighting systems, solar water heating products, solar water pumping systems, ...

Warranty and Repairs Look for solar LED street lights that come with a robust warranty and responsive customer service to address any issues quickly. A solid warranty can save you money on repairs down the line. Should You Buy Used? Buying used solar LED street lights can be risky due to potential hidden damage or reduced efficiency.

This solar street light works on its own, so you don't need to manually turn it on and off, or charge at sunrise. The IP65 waterproof grade of this unit makes it durable enough to combat harsh weather conditions. However, please take note that this solar lighting system is not designed with a motion sensor.
