Can Angola deploy pumped-storage hydroelectricity & hydrogen solutions?

Fernando Prioste, CEO of COBA Group, talks to The Energy Year about Angola's potential for deploying pumped-storage hydroelectricity and hydrogen solutions as it develops a robust energy industry and the central role of COBA Group in the country's power arena.

Should Angola invest in energy storage solutions?

With the ongoing solar projects under development in Angola with an installed capacity amounting to 500 MW, it is urgent to start thinking about efficient energy storage solutions. What structural challenges must be addressed for Angola to seize its renewable energy potential?

Can a gas grid be used in Angola?

This is not possible in Angola as there is no gas grid, but the hydrogen obtained from renewable energies can be shipped overseas or converted into ammonium. In turn, this chemical compound can be used as an energy storage component that could be exported or used for the fertiliser industry.
