CIMC TLC|RYC Generator Container is a special container tailored to the generator sets, as well as the design and installation requirements of the in-box auxiliary system.. It is mainly composed of cabin, controller system, exhaust equipment, radiator group, noise reduction components and auxiliary systems.

ELCOS offers the possibility of installing power generators inside CONTAINERS Iso Range 20/20HC" - 30/30HC" - 40/40 HC" according to the customer's requirements. All the CONTAINERS can be silenced up to 50 dB(A) @ 7m. On request, it is also possible to provide the RINA certification.

Publisher of the BIC Code Register since 1970, the BIC was appointed by the International Organization for Standardization (ISO) in 1972 as the industry's global container prefix registry, a role further endorsed by International Customs Conventions, and currently has over 2,400 container-operating members in more than 126 countries. Our Mission

The Twin Power container solution is a container that combines two engine/alternator assemblies with/without CHP in a 40ft container, making it perfect for applications that require variable or continuous power. Because you have two generators on a single platform, you have the flexibility you need to meet a 100% load or even a smaller load.
