

Australia pure sine wave inverter car

What is a pure sine wave power inverter?

We apologise for any inconvenience this may cause. Pure sine wave power inverter with peak power of 10000W and maximum continuous power of 5000W. The quiet running, robust, and reliable power converter. The Pure Sine Wave allows you to enjoy a clean and powerful AC source completely free from signal interference.

How much power does a sine wave inverter provide?

This pure sine wave inverter is capable of providing 1,000W continuously and a 2,000W surge. Ideal for powering microwaves, power tools, TVs, and other power thirsty devices when you are away from mains power. It features a standard 240VAC mains outlet as well as a USB port (2.1A) to charge USB devices.

Why should you buy a pure sine wave power converter?

The quiet running, robust, and reliable power converter. The Pure Sine Wave allows you to enjoy a clean and powerful AC source completely free from signal interference. You can run high powered devices such as computers, microwaves and TVs from your car, four wheel drive (4WD), truck, caravan, and boat battery.

Why is a sine wave inverter more expensive than a modified sine wave?

A pure sine wave inverter is more expensive than modified sine wave and prices go up as the wattage increases. Power inverters get their energy from the vehicle battery. If you run a 240V appliance on the inverter it will slowly drain the battery.

What is a 600W power inverter?

600W Max Continuous Power > 90% Efficiency ~ USB Pure sine wave power inverters are great for mobility, anytime and anywhere. This revolutionary equipment enables you to convert DC power in car batteries into standard household AC power, allowing you to conveniently transform your vehicle into a mobile home or office.

Does a sine wave inverter work if it gets too hot?

Two built-in cooling fans automatically run when the inverter gets too hot so you can run it for longer in hot conditions. Supplied with heavy duty DC leads and remote control kit. A quality high power pure sine wave inverter capable of providing 1,000W continuously and a 2,000W surge.

Pure Sine Wave Inversion . The two common types of wave formers created by inverters are true sine wave and modified sine wave. The second category is one you'll most likely want to avoid. Modified sine wave ...
