

Where is BSP's flagship solar PV plant located in Brunei?

BSP's flagship solar PV plant is located at G11 along Jalan Tengah, Seria. It is the second solar plant in Brunei and was constructed over seven months. During this time, almost 7,000 solar panels were installed on the four hectares of land. The 3.3MWp plant produced its first power on 30th March 2021.

Where is Bandar Seri Begawan located?

Bandar Seri Begawan is located in Muara Seria Tutong, Brunei. Its geographical coordinates are 4° 53' 00" North, 114° 56' 00" East.

Who received a pesambah from BSP solar PV project team?

The BSP Solar PV Project Team presented a Pesambah to His Royal Highness during a briefing about their flagship solar plant project. Located at G11 along Jalan Tengah, Seria, the solar plant is the second in Brunei and features the latest solar panel technology.

Where is BSP's solar park located in Brunei?

Located at G11 along Seria's Jalan Tengah, BSP's solar park is the second solar plant in Brunei after Tenaga Suria Brunei began operations in 2010. Almost 7,000 solar panels were installed on four hectares of land, with the plant producing electricity from March 30.

How many solar panels will be installed on Jalan Utara?

Almost 7,000 solar panels were installed on four hectares of land, with the plant producing electricity from March 30. Taking over seven months to complete, the solar power will be integrated with BSP's domestic grid, offsetting some of the power used at the BSP headquarters on Jalan Utara.

How will solar power benefit Brunei?

Solar power generated at the His Royal Highness The Crown Prince's officiating of the SERIA Energy Lab will benefit Brunei by offsetting some of the power used by the BSP Head Office, equivalent to the electricity consumption of approximately 600 households per year. On a national level, the power generated will contribute towards Brunei's target of producing 100MWp renewable energy by 2025.

Bandar Seri Begawan BB3913 Brunei Darussalam +673 2383022 / 2383025. Portal Statistics. Latest Updated Since 13 February 2024. Number of Visitors Guidebook for Solar PV Rooftop and Net-metering Programme serves as a reference or guidance for the public who wish to explore the opportunities in producing their own Renewable Energy on their ...

The expansion is expected to be completed in 2025 and will house an additional ~6,000 Solar PV panels that have a 3.0 MWp capacity overall. ... THE BRUNEIAN | BANDAR SERI BEGAWAN. Advertisement.
