

Bosnia and Herzegovina rack inverter manufacturers

Do 230 VAC 50 Hz power inverters work in Bosnia & Herzegovina?

We have plenty of environmentally-friendly products that work perfectly within the 230 Vac 50 Hz systems of Bosnia and Herzegovina. Power Inverters are needed in every country, and AIMS Power is here to provide those.

What products are available for use in Bosnia?

Below is a list of all of the products we have for use in Bosnia: AIMS Power inverters are available up to 8000 watts throughout the Bosnia in 12, 24 & 48 volt models for off-grid, mobile & emergency backup power applications.

Why does Bosnia & Herzegovina have a high energy expenditure?

Bosnia and Herzegovina's energy sector has endured significant loss due to the low energy efficiency standards in the past. This was the case with both residential and commercial buildings, which resulted in the country's high energy expenditure.

What is a mobile inverter?

The primary application is to convert current but Mobile Inverters have a secondary application. This is the mobility of the inverters to work in remote locations. One inverter can be used with different types of batteries. Inverter can be removed from the battery and installed into different circuits.
