

Capacity 500Wh lithium battery pack

What is the Yamaha 500wh lithium-ion pack?

Sale! The Yamaha 500Wh lithium-ion pack incorporates Yamaha's latest energy-storage technology in the battery's advanced design. Its large-capacity cells last longer and maintain the recharging properties throughout the life of the battery.

What is a Yamaha 500wh lithium-ion battery?

Yamaha 500Wh lithium-ion pack incorporates our latest technology in battery engineering. Highest-quality, large-capacity cells last longer and maintain the recharging properties for years of riding. Locked in place during your ride, the Yamaha electric bike battery is stealthy and quiet in its anti-vibration docking station.

How many watts can explorer 500 charge?

A: The Explorer 500 can charge/power devices that operate at less than 500 watts and the total wattage of all connected devices should also be under 500 watts as well. If the power requirement exceeds this limit, the Explorer 500 will automatically shut off. Please check your device's specifications before making a purchase.

Designed specifically for Shimano STEPS E8000 mountain bike system, the BT-E8010 mounts on the down tube and features 500Wh capacity. High quality, long lasting down tube mounting lithium-ion battery pack for Shimano STEPS systems. Features. Battery shape to allow for rear shocks and plenty of top tube clearance
