

Castries PV module wholesale prices

What is the PV module price index - secondary solar market report?

The third annual (2023) PV Module Price Index - Secondary Solar Market report is now available for download. The PV module price index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.

What is the PV module price index?

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.

Do PV modules lose resale value?

For historical secondary market PV module pricing from 2020 through 2023, download the 2023 PV Module Price Index from EnergyBin's Resources portal. Overall, the price index shows that new PV modules don't tend to lose resale value in the U.S. secondary market unless their technology is older, such as Legacy POLY modules.

How much does a PV module cost in Europe?

It noted an increase in commercial PV material recyclers and equipment providers from 25 companies in 2017 to 177 companies this year. Each company reported a recycling volume ranging from 1,000 tons per year to 50,000+ tons per year. By August, module prices in Europe dropped to EUR0.113/Wp for mono n-type and EUR0.116/Wp for bifacial n-type products.

How much does a solar module cost?

All Black and Bifacial modules were \$0.261/Wp and \$0.308/Wp respectively. The PV Module Price Index is a resource for solar professionals to accurately track modules traded within the secondary market. This year's report comes with some key changes to portray more precisely what's happening in the market.

How much will PV cost in 2024?

That calculates to \$4.84 trillion per year between 2024 and 2030, \$6.5 annually in the following decade, and \$7.5 trillion each year from 2041-2050. At the onset of 2024, investors were faced with a massive oversupply of PV modules, which would send prices plummeting throughout the year.
