

Container open frame generator

What are open frame containers?

Open frame containers are manufactured by our precision engineers, this is our speciality. ISO standard open frame containers come in various default sizes. Typical open frame container sizes are 20ft or 40ft. However, we supply larger or smaller builds on demand. All frames are CSC approved and come with CSC plates fitted.

Can a containerised generator power a construction site?

At Dale, we have a wide range of containerised generator units that can power everything from a construction site to a hospital and even large scale events. Dale's containerised generator units are able to offer bespoke designed solutions to meet your specific site requirements.

What is a containerised generator?

Containerised generators offer increased levels of weather protection for the generator unit in harsh environments. For example they're ideal for exposed locations, marine environment, oil and gas applications. As they're enclosed in a secure container that is usually a clean environment they often require less maintenance.

Why should you choose a containerised generator?

Fire Detection Panels and Intruder Alarms: Enhanced safety and security. Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas. Critical Backup Power: For MOD, NHS, and HMP sites, ensuring reliable performance in emergencies.

What size CSC container do I Need?

Typical open frame container sizes are 20ft or 40ft. However, we supply larger or smaller builds on demand. All frames are CSC approved and come with CSC plates fitted. InBox Projects supply open frame CSC containers, like this one, to Green Fuels who use them to house their fuel storage tanks. What is a CSC Plate?

What is an electrical generator?

Electrical generators are pieces of critical power equipment that provide electricity when power from the power grid is unavailable. Interestingly enough, generators don't actually create electricity.
