

Cook Islands camping outdoor power supply manufacturer

What type of plugs and sockets are in the Cook Islands?

In the Cook Islands, the power plugs and sockets are Type I. It has three flat pins: two angled ones and one straight one. Note that some appliances don't have that straight bottom pin but they are still compatible with the Cook Islands electrical outlets.

Do I need a travel adapter for a Cook Islands electrical outlet?

Well, the Cook Islands has Type I (i) power plugs with 240v AC 50Hz, so if your appliances don't fit the electrical outlets and/or require a different voltage or frequency, then you're going to need a travel adapter and maybe even a convertor. Makes sense? If not, this in-depth guide on the Cook Islands electrical outlet will make it so.

Can you use a 240 volt appliance in Cook Islands?

Appliances that don't clearly state that they can be used for up to 240v should not be used in Cook Islands electrical outlets. Otherwise, the higher voltage than required could damage your appliance (or worse). The most common types of appliances this applies to include hairdryers, electric razors and irons.

What is the electrical current in Rarotonga & the Cook Islands?

In Rarotonga and the Cook Islands, the electric current is 240v 50Hz. This means that the electrical current is 240 volts with 50 cycles per second. If your country of origin uses a voltage that ranges between 220v and 240v, then you will be able to use your appliances and gadgets in the Cook Islands with no problem at all.

Does Rarotonga & Aitutaki have electricity?

For the islands that most people visit, Rarotonga, Aitutaki and Atiu, electricity is available 24/7. On the lesser-visited islands of the Northern and Southern Group, however, electricity is a bit more limited and may only be available at certain times of the day.
