

Customized price of energy storage equipment box in Bergen Norway

What is ebess battery container?

The power grid is facing a number of challenges in meeting the growing demand for renewable energy. Nordic Batteries is at the forefront of developing customized battery and energy storage solutions to meet these challenges. Our eBESS battery container is a high-performance energy storage solution designed for use in the power grid.

Will Corvus build a battery factory in Bergen?

The battery factory in Bergen will supply Corvus' largest market--the growing European market--and contribute to employment in Bergen and across Northern Europe. Built on time and on budget, the factory comprises a robotized and digitized production line with nine robotic stations and a capacity of up to 400 megawatt hours (MWh) per year.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.
