Custom Lithium Battery Packs & Assemblies. Lithium is the lightest non-gaseous metal, and its negative potential for battery packs is higher than any other metal. Lithium-chemistry batteries and battery packs have the highest specific energy (energy per unit weight) and energy density (energy per unit volume) of all battery types.

Our battery packs are customized and optimized. SWE manufactures Lithium-Ion battery packs optimized to your design specifications. The advantage of Lithium-Ion is the high energy density (weight-to-size ratio). We bring together our engineering, manufacturing, and quality teams throughout the service/manufacturing process to ensure you receive the finest ...
