

EK third generation lithium battery pack in Penang Malaysia

Who is launching rm3.2 billion Phase 1 lithium battery plant in Penang?

KUALA LUMPUR: Battery maker INV New Material Technology (M) Sdn Bhd will start works on the RM3.2 billion phase one lithium battery plant in Penang. A major groundbreaking ceremony was held at the Penang Technology Park@Bertam in Kepala Batas recently to officially launch this cutting-edge facility.

Where are lithium batteries made in Malaysia?

Additionally, Kuala Lumpur boasts state-of-the-art manufacturing facilities, facilitating the production of diverse lithium battery variants to meet the demands of various sectors. Penang, often dubbed the 'Silicon Valley of the East,' is another prominent hub for lithium battery manufacturing in Malaysia.

Where will a battery separator factory be built in Penang?

Chinese lithium battery manufacturer INV New Material Technology has broken ground for a battery separator factory that will be constructed at the Penang Technology Park in Bertam, Kepala Batas in Penang, according to Penang state government investment agency InvestPenang.

Which is Penang's first lithium separator factory?

INV New Material Technology (M) Sdn Bhd will become the region's first lithium separator factory. Penang Chief Minister Chow Kon Yeow (third left) at the ground-breaking ceremony of INV New Material Technology (M) Sdn Bhd's new plant at the Penang Technology Park in Bertam, Kepala Batas. - Ian McIntyre pic, December 1, 2023.

What is Penang Technology Park lithium battery separator plant?

To learn more about the Penang Technology Park Lithium Battery Separator Plant project, buy the profile here. The project involves the construction of a 400,000m² lithium battery separator plant on 26.7ha of land with a production capacity of four billion square meters of wet-process separators and coated separators per annum in Penang, Malaysia.

When will the first lithium battery separator factory be built in Malaysia?

The establishment of INV in Penang, Malaysia signifies the inauguration of the first lithium battery separator factory in the ASEAN Region. The facility is scheduled for completion by July 2025, with the fifth-generation super wet-method production line set to be fully operational by September 2025.

At BH Cell, we specialize in creating custom lithium battery solutions, particularly tailored for forklift applications. The initial stage in crafting a personalized forklift lithium battery pack involves a complimentary consultation with our dedicated marketing team.
