

The United States Secretary of State, Marco Rubio, and Salvadoran Foreign Minister, Alexandra Hill, signed a memorandum of cooperation between the world's leading power and the Central American nation to promote nuclear energy. What is the scope of the agreement, and how would it be applied? -- El secretario de Estado de Estados Unidos, Marco Rubio, ...

Though US president Donald Trump has taken aim at Biden-era clean energy policies through the "Unleashing American Energy" executive order, support for the 45X Advanced Manufacturing PTC could remain. Both the president and the US Republican party have spoken about increasing US manufacturing, including manufacturing of energy storage.

Petrobras to Pay First Installment of Shareholder Remuneration on 20 Feb. 2025. Exxon Applies for Longtail Environmental Permits: Reuters. Brava Energia and Trafigura PTE Ink Deal for 6 MMbbls from Atlanta Consortium. ... Intradeco Completes Phase 2 Solar Energy Investment in Apopa in El Salvador.

Israel-headquartered Econergy meanwhile is active primarily in solar PV but has expanded into BESS recently, telling Energy-Storage.news in September that it would be the first to build a large-scale BESS in Poland and is considering adding BESS to its large Romania pipeline too.. In this piece, Ingrid's chief strategy officer Nicklas Bäcker and Econergy's head of ...

The National Energy Policy to 2024 of El Salvador guides the national actions on energy, following main principles: ensure high quality level and continuous and affordable energy access, decrease fossil fuel dependency and mitigate environmental and socia ... Carbon Capture, Utilisation and Storage; Decarbonisation Enablers; Explore all. Topics ...

As the world transitions toward cleaner energy sources and grapples with critical political shifts, 2025 is shaping up to be a pivotal year for the power sector.. According to Power Technology parent company GlobalData's ...

As frequent readers of Energy-storage.news might know, the majority of BESS projects built and in construction in Chile are paired with a solar PV project. Although a standalone project, the Arena BESS facility is still located in the northern region of Chile, where most of the solar PV capacity is located, due to its high irradiation levels.. Its proximity to solar resources ...

The AES Energy Storage platform provides a high-speed response to deliver energy to your system the moment it is required. This platform counts on advanced control structures that help improve the security and reliability of your supply, optimizing operation, increasing their useful life and reducing costs.

El Salvador 2025 Energy Storage Order

A years-long energy project in El Salvador recently reached a milestone, as technology company Wärtsilä; in November announced the installation and successful operation of a floating storage and ...

The promotion and production of geothermal energy in El Salvador will be a key area of focus. Despite a long tradition of geothermal energy use, its development has slowed in recent years with a limited number of new projects for power generation or heating applications brought online. ... Friday 11 April 2025 15:00. Clearstone Energy has ...

Energy-Storage.news speaks with Prevalon Energy's president and CEO, Thomas Cornell, about the company's new energy management system and Prevalon's plans to integrate it into future projects. ... Electrical Energy Storage 2025. May 7 - May 9, 2025. Munich, Germany . Intersolar Europe 2025. May 7 - May 9, 2025. Munich, Germany ...

Accelerating the future of energy (storage), together. Chile currently has approximately 60 MWh of battery energy storage systems. Together, we'll add 1,500 MWh of batteries over the next two years. This means multiplying today's storage capacity by nearly 25X while reducing the country's dependence on conventional generation at the same ...

Moreover, the combined forecast for solar PV and battery storage puts both technologies contributing to 50.7GW of the total 63GW in 2025. Regarding the growth of energy storage in the US, the EIA highlighted its ...

This NCMOU represents an initial step towards establishing a robust civil nuclear partnership between the United States and El Salvador with the aim of enhancing energy security, promoting mutual prosperity through ...

Under the terms of the deal, NV Energy will pay the developer US\$13,350/kW-month for storage during the first 20 years, with storage during the final five years available to the utility at no cost. The two parties negotiated a flat energy price of US\$34.97/MWh associated with the solar component of the project for the entire 25-year contract term.
