

Is Estonia part of Nord Pool's open electricity market?

Estonia is part of Nord Pool's open electricity market together with Norway, Sweden, Finland, Denmark, Latvia and Lithuania (see map). In the open electricity market (power exchange), the price of electricity is formed as a result of supply and demand. There is at least one price area in each country, in a larger country there may be several.

How is the electricity market regulated in Estonia?

In Estonia, the electricity market is regulated by the Electricity Market Act and the Network Regulations, which contain requirements for electricity producers, sellers, network operators, line operators, balance managers, the organiser of the electricity exchange and consumers, as well as the Competition Authority, which supervises the market.
