

Field emergency portable power supply

What devices can a portable power station run?

So long as your portable power station has the right ports and enough capacity, it can run a massive range of devices, including phones, laptops, and desktops. Higher capacity units will also let you power appliances and charge electric vehicles. Check which ports your preferred model has, including USB Type-A and Type-C, AC and mains sockets.

How do I choose a portable power station?

When selecting a portable power station, it's essential to identify your primary needs and priorities for owning one. Most portable power stations have main common features (such as a battery and ports to pull power from that battery).

What is the best portable power station?

With a great power-to-weight ratio, the latest version of the Bluetti Elite 200 V2 is a great portable power station for powering a camper or providing backup power for the essentials. With its tremendous capacity, the EcoFlow Delta Pro 3 is truly capable of providing a whole-home backup without gas or solar panels.

How long does a portable power station last?

Like any battery, for example one in a phone or laptop, this will wear down over time until the power station no longer holds charge. General estimates put the lifespan of a portable power station at around ten years. Expect it to last approximately five years minimum with standard use.

What does Bradley Ford use a power station for?

He's used portable power stations to keep his laptop charged while working on the road, power his RV during camping trips, and keep his fridge cool when the power goes out. Bradley Ford has been testing generators and power stations at Popular Mechanics for 5 years. In that time he's tested dozens of units, both big and small.

Are portable power stations suitable for camping?

Almost all compact portable power stations will be suitable for camping, but I rather like the Bluetti Handsfree 2 for this role - mostly because many of them are big, boxy, unwieldy units that take up a fair amount of space.
