What is Solar Light? A solar lamp, solar light, or solar lantern has an LED light, solar panels, a battery, a charge controller, and maybe even an inverter. The lamp gets its power from a solar panel, which charges its batteries (solar photovoltaic panel). You can use solar power instead of candles or kerosene lamps to light your home.

By 2019, Home and Lighting was officially launched, offering innovative solar lamp post lights, led solar street lights, and dusk to dawn solar lights that could light up even the darkest corners. Our commitment was clear--to create durable, weatherproof, and cost-effective lighting solutions for every outdoor space.

I traveled to Gabon with 12 Luci Pro Outdoor 2.0 lights in my checked baggage and quickly realized their value in the field. My team and I were sampling fish biodiversity in the Iguela Lagoon in southern Gabon. We were lodged in rustic conditions - a simple concrete building with an unpredictable generator.
