

Georgia Photovoltaic Panels Wholesale Solar

Are solar panels a good investment in Georgia?

Contact us now to start saving money on your power needs with a system more reliable than your electric utility can provide. Solar panels have become increasingly popular in the state of Georgia. In recent years, solar energy installation has risen steadily in response to its multiple benefits for both residential homes and commercial businesses.

How much does a 5 kW solar panel cost in Georgia?

In Georgia, the average cost for a 5 kW solar panel system is around \$13,160. Once you factor in the 30% credit, the cost of a solar panel system in Georgia comes down to \$9,212. When you file your taxes, you can claim this incentive as a credit towards your federal tax bill.

Why are solar panels so popular in Georgia?

Solar panels have become increasingly popular in the state of Georgia. In recent years, solar energy installation has risen steadily in response to its multiple benefits for both residential homes and commercial businesses. Solar panels provide an alternative energy source, reducing dependence on natural gas and electricity.

Should you go solar in Georgia?

For those looking for an efficient and cost-effective way to reduce their carbon footprints, going solar in Georgia is a great choice. From the moment you contact Alternative Energy Southeast, Inc., we will be a one-stop shop for your solar panel installation and energy storage needs from start to spectacular finish.

Who is alternative energy southeast?

From the moment you contact Alternative Energy Southeast, Inc., we will be a one-stop shop for your solar panel installation and energy storage needs from start to spectacular finish. In consultation with you every step of the way, we will design, install and follow-up on your solar solution because your satisfaction is our primary mission.

Are solar panels a good alternative energy source?

Solar panels provide an alternative energy source, reducing dependence on natural gas and electricity. Solar energy is a clean energy source that contributes fewer contaminants to the environment than traditional sources.

Depending on the type of panels and energy consumption, you might need anywhere from 12 to 45 solar panels. Remember, the more panels you install the more energy you will get. Please use our solar calculator to estimate your energy consumption and plan on building a solar system that will exceed your energy needs by 25%.
