

Green solar water pump direct sales price

Are solar-powered water pumps a sustainable solution?

Solar-powered water pumps are increasingly popular as a sustainable and cost-effective solution for well, irrigation, and livestock water needs. Solar pumps come in various sizes and types, from small 12V pumps for low gallons per minute requirements to larger systems running off 6-panel solar arrays for commercial agriculture.

How much does a solar water pump cost?

A solar water pumping system comes in a wide range of prices, from around \$20 for a small water fountain pump to well over \$1,000 for deep well submersibles or irrigation pumps. The cost will depend on the size and power of the pump, the manufacturer, and the price of additional accessories you may need. Q.

Who is solar water pump manufacturer in China?

Served more than 1000 overseas customers around the world We are a leading R & D and manufacturer of solar water pumps in China, with dozens of patented technologies, large-scale standardized production, direct sales and more competitive prices.

What is an off-grid solar well pump?

Off-grid solar well pumps are particularly useful in remote areas with limited or non-existent access to electric power. These systems can pump water from a well or other water source to a storage tank, providing a reliable water supply for livestock and irrigation.

Who makes solar water pumps?

WBS began producing water pumps in 1998. In 2008, we independently developed and produced solar water pumps. We have OEM production for more than 200 solar pump dealers around the world. Over the past 10 years, we have produced more than 150,000 sets of solar water pumps that have been exported to other parts of the world.

Are solar water pump systems a good choice?

Solar water pump systems are an excellent choice for those who need to pump water from a well, whether for irrigation, livestock, or other purposes. Solar water pumping systems for irrigation are becoming increasingly popular due to their cost-effectiveness and the ability to quickly add a producing well anywhere.
