Photovoltaic (PV) Solar Panels for home consist of a series of cells that collect energy from the sun. The sun's rays (photons) dislodge the electrons which in turn creates electricity. An Inverter converts the sun's energy from DC (Direct Current) into AC (Alternating Current) so that it is compatible with your home's electrical system.

These 1kW to 3kW solar panel kits deliver enough energy for a range of domestic applications such as holiday homes, cabins, workshops, remote offices, stables, summerhouses and other uses. The range includes 1200W solar panel kits, 1800W solar panel kits, 2400W solar panel kits and 2700W solar panel kits.
