

Indian inverter wholesale price

Are solar inverters available in India?

Because of the country's ambitious renewable energy targets, demand for solar inverters has increased significantly. Standalone inverters, hybrid inverters (combining solar and battery storage), and grid-tied inverters for solar installations are all available in India.

What is a solar inverter?

A solar inverter is a type of electrical converter which converts the DC (direct current) into a utility frequency AC (alternating current) that can be fed into a main grid in on-grid solar system. And vice versa in off grid solar system and hybrid solar system. It is a very important part of a solar system.
