Sungrow Power, it was founded in 1997. It is a solar inverter manufacturer in China. From initially focusing on the R& D, production and sales of PV inverters, to nowadays its business has spread over the two fields of power plant investment and power conversion equipment, it has proved its extraordinary strength.

The industrial sector is the sector that currently contributes most to Indonesia's annual GDP growth. The two most important sub-sectors of industry are mining and manufacturing, both being major pillars of the nation's economy since the 1970s, thus being engines of economic change and development during Suharto's New Order regime.
