What is an uninterruptible power supply?

An uninterruptible power supply, commonly known as UPS Power Supply is easy to install a device that is designed to provide power to your computers, servers, server rooms and data centres in case of main energy failure, electrical surge or unexpected energy cut off.

Where can I buy UPS - uninterruptible power supplies?

Please try again. UPS - Uninterruptible Power Supplies are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many UPS uninterruptible power supply manufacturers including Eaton, Phoenix Contact, Schneider Electric, SolaHD, Tripp-Lite & more.

What is a standby UPS?

Standby UPS - A system where, normally AC input (utility power) is output as is to connected devices and when a power outage or abnormal voltage is detected, inverter starts feeding using power from the batteries. In the event of a power outage, a few milliseconds of momentary break occurs in AC output.

What is a hybrid ups & how does it work?

Hybrid UPS - This system consists of three modes: double conversion mode, economy mode, and active filter mode. The UPS automatically selects the power feeding mode to best suit the power situation and load conditions. It is possible to shift between the respective modes with no momentary break in output voltage.
