

Is Israel the future of solar energy?

Due to years of accumulated experience and ingenuity, Israel is at the cutting edge of solar energy technology, and Israeli companies are incorporated within solar projects around the world. For example, market leaders in utility scale projects include Israel-based BrightSource Industries, Solel and Brenmiller Energy.

Why is solar energy so popular in Israel?

This early, state-backed use of solar energy made the industry boom: nowadays, solar energy accounts for 3% of the primary national energy consumption in Israel, making the country the world leader per capita. Solar waters can be seen on rooftops of most residential buildings all around the country.

Are photovoltaic solar panels available in Israel?

There are various size fields with photovoltaic solar panels in Israel. These solar energy producers have an agreement with the Israeli government, ensuring the electric company will purchase the energy at a price that fluctuates according to the market's cost production. Between 2004 - 2017 Israel's energy usage more than tripled itself.

Is Israel a leader in solar energy innovation?

With organizations like the Cleantech Forum, an international business development firm that's listing Israel in a league of its own, world rankings show that Israel is no small player in solar energy innovation. Solel Solar's parabolic solar collector in Beit Shemesh. The company manufactures solar collectors for solar fields all over the world.

What is the largest solar power station in Israel?

Ashalim solar power station in the Negev is the largest of its kind in Israel and fifth largest in the world. It shows some of the 55,000 mirrors directing sunlight toward the Ashalim solar tower. Photo by Yonatan Sindel/FLASH90. 1. Abstract Israel's location and climate allow a high potential for solar energy production.

Who owns the photovoltaic power fields in Israel?

Arava Power Company: Arava Power Company owns 20% of the photovoltaic power fields in Israel located throughout the Negev region, building the following projects: Ketura Sun, Revivim, Choval, Grofit, Yotvata, Elipaz, Maslul, Mitzpeh Ramon, and more.
