

# Kingston Traffic Uninterruptible Power Supply Equipment

What services does utilities Kingston provide?

Utilities Kingston provides multiple utility services in Kingston, Ontario, as well as reliable maintenance and operation of traffic signals at 200 intersections and over 10,000 street lights.

What is a traffic signal power supply?

A traffic signal power supply is an electrical device in the control cabinet that converts AC to correct DC voltages for various devices in the traffic signal cabinet. It supplies power to traffic signal cabinets while adhering to local utility company requirements. The nominal voltage of the power supply is 24VDC. Traffic Signal power supplies ensure the proper functioning of traffic signals.

How can a traffic management team reduce power consumption?

Traffic management teams can reduce power consumption by using LED or light-emitting diode lamps, which consume less power during operations. This makes it easier to provide backup power, such as the use of uninterruptible power supplies (UPS).

Are Jasper electronic traffic light control power supplies Caltrans approved?

Jasper Electronic Traffic Light control power supplies are Caltrans approved and comply with TEES 2009 for use in type 332, 334, and 336 style cabinets.

What type of power supply does Jasper electronics offer?

Jasper Electronics offers highly reliable and high efficiency switching technology power supplies, providing a single 24VDC, 120W output in their 'TC' Series Power Supplies and Racks.
