How much are solar tariffs in Thailand?

The rates alleged are 70.35% for Thailand, 81.24% for Malaysia, 127.06% for Cambodia, and 271.45% for Vietnam. How to apply solar panel import tariffs Solar tariffs are collected by customs agents.

What are solar panel import tariffs?

Solar panel import tariffs are primarily intended to support the development of a new U.S.-based solar module manufacturing supply chain, which is financially backed by the Inflation Reduction Act. This act introduces a series of tax credits designed to bolster domestic manufacturers. For solar modules, the credits are as follows:

Which solar companies are constructing new factories in Laos?

Companies like SolarSpace and the China-affiliated Imperial Star Solar are both constructing new factories in Laos. The U.S. solar panel market is the second largest in the world, following China, and import volumes reached a record high in the second quarter of this year.

How are US tariffs affecting Southeast Asia?

Over the past 18 months, the effects of the U.S. increasing tariffs on four Southeast Asian countries have become apparent, with Chinese companies in Vietnam's solar sector being forced to cut production and lay off workers, while Indonesia and Laos are experiencing a surge in factory construction.

Are Chinese solar plants moving to Indonesia & Laos?

Chinese companies are increasingly shifting production lines to Indonesia and Laos, where U.S. tariffs do not apply. Among the new solar factories in these countries, at least four are linked to Chinese firms, with two more projects recently announced, totaling a capacity of 22.9 GW, most of which will be sold to the U.S. market.

Where is LONGi Solar power plant located?

Longi's solar power plant located in Vietnam. (Photo: Longi) Tariffs are a central issue in this year's U.S. presidential election, particularly as trade barriers between the U.S. and China are impacting the global solar industry landscape.

Clean Energy Associates released a summary of the seven solar module trade policies and solar panel import tariffs currently in place, including AD/CVD rulings, Section 201/302, and the Uyghur Protection Act. These tariffs have significantly increased, or will increase, the cost of hardware imports into the United States - predominantly from China, but not ...
