

London backup ups uninterruptible power supply quotation

What types of uninterruptible power supplies do you supply?

We supply a full range of uninterruptible power supplies including: Offline, Line Interactive, Online Double Conversion and Power Conditioned UPS. From a small 300va to a 800Kva UPS running in parallel we have the expertise to provide the solution you require. The design, supply, installation and maintenance of your UPS system is our speciality.

What is an uninterruptible power supply (UPS)?

Having an Uninterruptible Power Supply (UPS) is vital for businesses across the UK. It protects equipment and services from power outages. However, even UPS systems can be susceptible. How does an Uninterruptible Power Supply Work? Uninterrupted operations in businesses depending on digital infrastructure require these to be maintained.

Should you install an uninterruptible power supply?

Installing an uninterruptible power supply is an excellent way to protect your mission critical systems. However, it is no guarantee of continual power as UPS components and UPS batteries can fail if they are not properly maintained to a high standard.

What is a 10kVA ups?

10kVA UPS (Uninterruptible Power Supplies) is used for small to medium power protection applications, like backup of an home office or a small data centre. This makes them ideal for a wide range of applications across multiple sectors, including education and retail. UPS Systems plc has been sourcing and installing backup power for over 25 years.

Can an ups fully deplete a battery?

Yes, a UPS like any other equipment powered from a battery can fully deplete. This will all depend on how much back up time the UPS has and how long the power cut is. We stock a range of Uninterruptible Power Supplies (UPS), that are ready to be delivered, installed and maintained.

Does Power Saver supply UPS?

Power Saver can supply and service systems ranging from 400VA single user systems right up to 4.8MVA multi-module parallel systems. We are manufacturer independent, which means we can source the right UPS for your requirements, regardless of manufacturer. Power Saver can supply, replace and dispose of UPS Batteries for any UPS System.

Back-up storage systems ensure a continuous power supply to your facility, even when the main power grid is unavailable. These lithium battery power storage systems guarantee supply by using stored power, enabling a controlled shutdown of applications or supporting secure switching between the power grid and the backup
