Customer Details (*Required Fields) 2. Installation Surface 3. Calculate Cost by (Select an Option) Area (Sq. Metres)

What are monocrystalline solar panels?

Monocrystalline panels are easy to distinguish by the black color of the cells. Their efficiency today varies from 16 to 22%, which means that mono solar cells convert into direct current from 16% to 22% of the sunlight that they receive. That's the most popular type of panels -- in fact, most top manufacturers don't even sell anything else.

What are the best solar panels for home installations?

There are also a few brands that offer premium-class PV modules for home installations. These include Panasonic Eco Solutions, LG, SunPower, REC, Solaria and a few others. Generally, it doesn't make much sense to build commercial systems out of them -- they are too classy and expensive for that.

Your trusted supplier in the journey towards a sustainable future. Wholesale trade prices from a UK solar distributor for leading brands including JA Solar, Ecoflow, GivEnergy, Homegrid, Tigo, Solax. Nationwide UK delivery.
