A UPS (Uninterrupted Power Supply) is a backup battery that keeps the equipment plugged into it running in the event of a power outage. It's not just a glorified power bank, because the UPS detects interruptions in the power and automatically switches the connected devices to running off the UPS battery, so they don't shut down.

Protect sensitive electronics and equipment during power surges and blackouts with a UPS System or Uninterruptible Power Supply from our extensive UPS lineup of standby, line-interactive, and double-conversion models. Battery backup ...
