

New Zealand Auckland Brand Solar System Engineering

Who is New Zealand's leading solar provider?

New Zealand leading solar provider since 1986 ? Web design by ZOHAR Ltd. Solar Group is New Zealand's leading solar energy provider. We've been installing solar systems in NZ & the Pacific since 1986. Get a free report & quote.

What is a grid-connected solar system in New Zealand?

A grid-connected solar system in New Zealand uses north-facing PV panels to convert sunlight into AC energy for homes, allowing excess energy to be sold back to the grid. An off-grid solar PV system enables independent electricity generation and storage, ideal for remote locations or commercial use, requires batteries.

Why should you choose a solar installation in NZ?

Choosing a solar installation in NZ reduces your reliance on traditional power sources and helps you save money on your electricity bill. You're also taking control of your energy future, as appliances and lights remain operational even during a power cut.

Can New Zealand banks install a solar power system?

Thanks to New Zealand banks jumping on board the renewable energy bandwagon - a solar power system is now more achievable than ever. Trust Solarcraft, The Solar Energy Professionals, for your Solar Power Installation. Hassle free, from start to finish. We are your sole point of contact during your solar system installation
