

New mobile power station generator

Is a portable power station a good alternative to a generator?

If you find yourself in need of power and away from a usable source, a portable power station is an inexpensive alternative to a generator. However, not all power stations are created equal.

How do I choose a portable power station?

When selecting a portable power station, it's essential to identify your primary needs and priorities for owning one. Most portable power stations have main common features (such as a battery and ports to pull power from that battery).

What can a portable power station power?

Other than simply recharging your devices, a portable power station can power lamps to light a room, or in some cases keep a fridge running during a power outage. Have power, will travel. It's easy to think that a power station is just a really big portable battery pack, but they offer so much more.

What is the difference between a generator and a portable power station?

A portable power station is essentially a big rechargeable battery that you carry around. Deplete it, and it's useless until you can recharge. A generator, by definition, is a device that actually converts some type of energy to usable electricity in whatever circuitry you have it connected to.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, GreCell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. [What to Know Before Purchasing a Portable Power Station](#)
