String inverter: A string inverter is a single, standalone unit that converts power from a whole string (or strings) of solar panels. String inverters are cheap and convenient, but tend to be the least efficient. String inverter + power optimizer: Power optimizers are attached to each individual panel. They perform MPP tracking at the module ...

At Sinetech, we understand that an uninterrupted power supply during load shedding means homes flourishing and businesses thriving. That's why we offer a comprehensive range of high-quality and cost-effective solar ...
