

Outdoor split solar lights

What are the different types of outdoor solar lights?

Based on their light output, outdoor solar lights fall into three general types: motion-activated, dusk-to-dawn, and timer-controlled. Because of solar cell size and battery capacity, the solar energy gathered is a limited resource, so consider when you want the lights to shine and for how long.

What is the best outdoor solar light?

Durable and versatile, the AloftSun Motion Sensor Solar Landscape Spotlights are our best outdoor solar light pick with three easy-to-use lighting modes and two installation methods, so you can have bright light when and where you need it.

What are the best solar landscape spotlights for outdoor spaces?

Our top pick for most outdoor spaces is the AloftSun Motion Sensor Solar Landscape Spotlights. During testing, they withstood our durability tests, were easy to use, and were bright enough to read under! These spotlights can detect motion from as much as 33 feet away, depending on the setting.

How many solar-powered outdoor lights are there?

Over the last few years, we've tested 62 different outdoor lights, including over 30 solar-powered options. After testing in our lab or at one of our own homes across the country, each light was evaluated on ease of assembly, brightness, features, design, value, and durability.

Are Hampton Bay LED outdoor solar spotlights good?

The solar panel on top of the Hampton Bay LED Outdoor Solar Spotlights are adjustable, so you can angle them directly towards the sun for a longer runtime. At 55 lumens, this light is relatively bright and works well as landscape lighting. However, we think a set of these lights would work even better at illuminating your yard.

How do you Mount outdoor solar lights?

Mounting: Some outdoor solar lights mount like traditional light fixtures using screws, including our best wall-mounted pick, the Cyhkee Motion Sensor Solar Powered Wall Lanterns.

The split solar outdoor lights are composed of two parts: Solar panel and lighting body. The solar panel and light body can be positioned independently; you can use the included 16.4ft / 5meters extension wires to mount the solar panel in a sunny location to ensure the batteries can be charged maximally, and then place the lighting body indoors or ...
