

PV inverter manufacturer shipments

What is the global PV inverter market share?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report.

Which PV inverter vendors shipments grew the most in 2022?

The top five vendors - Huawei, Sungrow, Ginlong Solis, Growatt, and GoodWe - shipped more than 200 GWac and accounted for 71% of total global PV inverter shipments in 2022, growing 8% from 2021. Huawei's shipments saw a significant increase of 83% in 2022 compared to 2021, while Sungrow's shipments expanded 56% in the same period.

How did global PV inverter shipments grow in 2023?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market.

Who makes the most solar PV inverter shipments in 2023?

Huawei and Sungrow accounted for more than half of all global PV inverter shipments in 2023. Image: Sungrow Shipments of solar PV inverters grew 56% year-on-year between 2022 to 2023 to reach 536GW, according to research and consulting firm Wood Mackenzie.

Where are solar PV inverter shipments coming from in 2021?

In terms of geographic reach, Asia Pacific consumed over half or 116,064 MWac of the global solar PV inverter shipments in 2021. Shipments to China, India and Australia accounted for the increase in demand, with Huawei and Sungrow maintaining its dominance in the region. Europe took up 23% of the global market with 50,770 MWac inverter shipment.

Where did solar inverter and module-level power electronics market share go?

In its "Global solar inverter and module-level power electronics market share 2024" report, Wood Mackenzie highlights that more than half of the global shipments went to China, as the country more than doubled its installed solar PV capacity in 2023 with 217GW.

After a steep decline in inverter shipments in Q4 2023, Solaredge has started the first quarter of 2024 with an increase to 946MW. ... Struggling solar manufacturer Meyer Burger has postponed its ...

The top destination for Indian-made solar modules is the United States. In the inverter landscape, Sungrow led the pack, followed by FIMER, Sineng, Solis, and GoodWe. Central inverters constituted a majority of the

PV inverter manufacturer shipments

shipments in Q4 2023. Q4 2023 witnessed a spike with 1.42 GW added in utility-scale solar, 67% more than the previous quarter.

JinkoSolar, JA Solar and Trina Solar have achieved a total shipment of about 180GW in the first three quarters of 2024 amidst bleak industry situation, according to Solarbe Global. Contact Us. About Us. solarbe ... Manufacturing Shipment Ranking. Top PV module suppliers by shipment in Q3 2024. By Sebrina Fichtner. 10/31/2024. 0. Share. LinkedIn ...

China's solar power landscape witnessed a surge in 2023, with 216.88 GW of new installations, showcasing a 148.12% year-on-year increase, as per the latest data from the National Energy Administration (NEA). This surge ...

The world's top 10 solar PV inverter manufacturers accounted for 86% of the total market share in 2022, according to new figures from energy analysts Wood Mackenzie, as global shipments increased to more than 330GW. ... Growatt, and GoodWe - shipped over 200GW between them and accounted for 71% of total global PV inverter shipments in 2022 ...

Solar buyers continue to gravitate to the top manufacturers in terms of market share, according to new global rankings released by Wood Mackenzie. Global top 10 solar photovoltaic (PV) inverter vendors shored up 82% of market share in 2021, increasing by 2 percentage points compared to 2020. ... Global PV inverter shipments grew 22% or 40,250 ...

The top 10 PV inverter manufacturers accounted for 81% of the global market last year, and two captured more than 50% says Wood Mackenzie. According to a report from the firm, global solar inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023. The top 5 manufacturers for shipments (capacity) were: Huawei; Sungrow

The strong revenue figures in Q1 were backed up with equally strong shipment figures. Total PV inverter shipments were 4,367MW, up from 3,900MW in the previous quarter, setting three sequential ...

The world's top 10 solar PV inverter manufacturers accounted for 86% of the total market share in 2022, according to new figures from energy analysts Wood Mackenzie, as global shipments increased to more than 330GW.

According to Wood Mackenzie's "Global Solar Inverter and Module-Level Power Electronics Market Share 2024" report, the top 10 global PV inverter vendors captured 81% of the market and led the charge, responsible for over half of global shipments as its solar demand doubled in 2023. Huawei and Sungrow solidified their market dominance, maintaining the first ...

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the ...

PV inverter manufacturer shipments

On the back of a strong year for the solar industry, global photovoltaic (PV) inverter shipments jumped by 56% to 536 GW AC in 2023, with China accounting for more than half of that, according to a report by Wood Mackenzie. ... though this was concentrated in the utility-scale sector as residential inverter manufacturers dealt with slower ...

Global inverter shipments increased to 330 GW last year with Huawei, Sungrow, Ginlong, Solis, Growatt and GoodWe named as the top vendors. The top 10 global solar inverter vendors accounted for 86% of market ...

Sineng Electric has been ranked in fourth position for global inverter shipments for 2023 in the latest S& P Global Commodity Insights report. ... Global solar module manufacturing capacity to ...

JinkoSolar, JA Solar, Trina Solar, and LONGi shipped about 63 GW of PV modules in the first quarter of 2024, accounting for over 55% of total shipments, underscoring intensified concentration. The top 10 brands ...

The top five vendors - Huawei, Sungrow, Ginlong Solis, Growatt, and GoodWe - shipped more than 200 GWac and accounted for 71% of total global PV inverter shipments in 2022, growing 8% from 2021. Huawei's ...

Global top 10 solar photovoltaic (PV) inverter vendors shored up 82% of market share in 2021, increasing by 2 percentage points compared to 2020, says Wood Mackenzie, a Verisk business (Nasdaq:VRSK). Global PV ...

Top10 Micro Inverter Manufacturers Enphase. ... Due to its strong focus on the micro inverter market, Enphase ranks in the top 10 for global PV inverter shipments. The company has shipped more than 48 million ...

An overview of the world's top 20 solar inverter manufacturers. Before we get started, I'd like to make a respectful clarification. ... By 2022, Sungrow Power is no longer a novice, it has become the global leader in the PV inverter market, with shipments approaching 8 gigawatts (GW), an achievement that is truly amazing. It has surpassed ...

The inverter manufacturing market is always competitive, but the past year was even more challenging for companies. A Wood Mackenzie report found total revenue for the Top 5 global inverter vendors declined 10% last year due to price pressure and fierce competition. These issues caused numerous acquisitions and exits in 2019: ABB paid Fimer to take over its ...
