Thor Power Boards ; Cube Power Board ; Surge Protector Power Boards ; Uninterruptible Power Supply . Socomec UPS Range . NeTYS PE Tower UPS - From 650VA to 2000VA

We offer a wide range of high efficiency Uninterruptible Power Supplies to provide critical power to a load when a mains outage occurs. Our products provide scalable power up to 5.2MVA, for small to medium sized computer environments, data centres, industrial automation processes and healthcare facilities. Our products provide complete power protection, offering best in class ...

Although more expensive, online UPS are, arguably, the most efficient, clean and reliable source of backup power. Online uninterruptible power supplies utilise double or delta conversion technology. Rather than equipment receiving power from the AC outlet, AC power travels to the rectifier where it is changed to DC.

An uninterruptible power supply (UPS) provides two main functions when protecting laboratory and scientific equipment. The first is to provide clean and stabilized electrical power to sensitive electrical equipment. Second is to provide instantaneous battery backup power in the event of brown or blackouts.

Installing an uninterruptible power supply is an excellent way to protect your mission critical systems. However, it is no guarantee of continual power as UPS components and UPS batteries can fail if they are not properly maintained to a high standard. A planned program of UPS maintenance should always be considered as an essential part of any ...
