

Papua New Guinea photovoltaic panel manufacturer

Where can I get solar power in Papua New Guinea?

Or Get A Quote! PNG Solar Supplies provides custom solar power solutions in Lae, Morobe Province, Papua New Guinea. Empower your home with solar energy.

Can photovoltaics bring electricity to rural Papua New Guinea?

Using photovoltaics to bring electricity to rural Papua New Guinea. Whether your project is 5kW for your house or 5MW for a solar farm, our Certified Solar Energy Systems Design team is ready to assist-- contact us today to get started. Whether you already know what you need or are still exploring your options, we're here to help.

Who are png solar supplies?

At PNG Solar Supplies, we design, build and install customised solar power systems to meet the specific needs of our customers. From modifying existing solar boards to installing new solar panels, our services range from 1KVA to 100KVA.

What are the recent developments in PNG's energy market?

Despite huge popularity in the rest of the world solar power has yet to take off in PNG. With recent developments in the PNG energy market its now safe and legally compliant to use solar for certain applications.

Why should you consider using solar power in PNG?

Despite its huge popularity elsewhere, solar power has yet to take off in PNG. However, recent developments in the PNG energy market make it now safe and legally compliant to use solar for certain applications.

What services can a solar panel installation service offer?

From modifying existing solar boards to installing new solar panels, our services range from 1KVA to 100KVA. We customise services according to your requirements and we can design for standalone houses, schools, health centre, churches etc. We can connect solar DC fridge, DC generator and DC Aircon.

Advantage of PVT Solar Panel. Free Renewable Hot Water and Electricity: Our PVT solar panels enable single system that delivers both hot water and electricity. Space Saving: Depending on the available space on roof for solar panels, you may choose either thermal system or solar PV. Cooling: These panels are structured in cooler temperatures. The system output can be ...
