

Portable Power Supplies and Generators

Is a portable power station a good alternative to a generator?

If you find yourself in need of power and away from a usable source, a portable power station is an inexpensive alternative to a generator. However, not all power stations are created equal.

What is a portable generator?

These generators, sometimes called backup generators, are used to provide temporary power when and where it is needed. Portable is a relative term; some are more portable than others. While the smallest models can be picked up and carried, most have wheels and a handle to make transport easier.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. **What to Know Before Purchasing a Portable Power Station**

What is the difference between a generator and a portable power station?

A portable power station is essentially a big rechargeable battery that you carry around. Deplete it, and it's useless until you can recharge. A generator, by definition, is a device that actually converts some type of energy to usable electricity in whatever circuitry you have it connected to.

What is the best portable generator?

Editors' Note March 2025: After our latest round of testing, we reviewed our picks of the best portable generators and added the Pulsar 7,250-Watt Dual-Fuel Inverter Generator. It replaces Champion's 5,500-Watt Dual-Fuel Generator for the most versatile we recommend since it has higher capacity, is an inverter, and (always a bonus) costs less.

What is a portable power station?

Portable power stations are generally designed to power smaller electronic devices and appliances, from phones and table fans to heavy-duty work lights and CPAP machines. Pay attention to the estimated watt-hours each brand provides in its specs to determine which model makes the most sense for what you'd like to power.
