Subscribe to Newsletter Energy-Storage.news meets the Long Duration Energy Storage Council Editor Andy Colthorpe speaks with Long Duration Energy Storage Council director of markets and technology Gabriel ...

As America moves closer to a clean energy future, energy from intermittent sources like wind and solar must be stored for use when the wind isn't blowing and the sun isn't shining. The Energy Department is working to develop new storage technologies to tackle this challenge -- from supporting research on battery storage at the National Labs, to making investments that ...

Following an application from NOVO Energy, a jointly owned company between Northvolt and Volvo Cars, the Land and Environmental Court decided on July 12 to grant permission for the establishment and operation of a facility for a battery factory. The new battery factory will be built next to Volvo Cars in Torslanda.

Innovative energy storage advances, including new types of energy storage systems and recent developments, are covered throughout. This paper cites many articles on energy storage, selected based on factors such as level of currency, relevance and importance (as reflected by number of citations and other considerations).
