Price of solar lights for China and Africa

I recently purchased 4 lights via the Lighting Warehouse online store as I was not able to find any lights suitable for my purpose at home decor stores in Bloemfontein. I needed bedside table lights that are functional (ie heavy and stable enough not to fall over!), look good and are not overly expensive.

In today's era of renewable energy, solar panels have become an important part of the global energy mix. China is known for its manufacturing prowess and is a major exporter of solar panels, offering a variety of products at competitive prices. This guide is designed to provide a comprehensive overview of importing and shipping solar

But poorer nations like Zambia - that contribute little to global greenhouse gas emissions - lack the financial muscle of South Africa. At present, China accounts for 55% of Africa's total solar panel supply, but transport times are months-long, which complicates any large-scale rollout. Price is another factor.
