

Solar water pumps and prices

How much does a solar water pump cost?

Solar water pumps from 12v, which are the most common, usually have prices around 60 Euros and are able to pump 3 liters per minute. On the other hand, the most powerful pumps, capable of pumping 6 liters per minute, can be found by 70 Euros, which represents a minimal price difference considering the improvement in performance.

Are solar-powered water pumps a sustainable solution?

Solar-powered water pumps are increasingly popular as a sustainable and cost-effective solution for well, irrigation, and livestock water needs. Solar pumps come in various sizes and types, from small 12V pumps for low gallons per minute requirements to larger systems running off 6-panel solar arrays for commercial agriculture.

What is a solar water pump system?

The concept of a solar water pump system is still relatively new. However, like all other water pumping systems, the mechanics are quite similar. It relies on the basic principle of positive displacement and kinetic energy, which is used to move water from one point to another.

What are the different types of solar pumps?

There are several types of solar pumps, such as solar photovoltaic pump, solar thermal water pump and domestic hot water pump. Solar pumps are generally submersibles or surface, and have multiple applications, from irrigation in crop areas, drinking water systems, to installations in water projects for livestock.

Are solar water pump systems a good choice?

Solar water pump systems are an excellent choice for those who need to pump water from a well, whether for irrigation, livestock, or other purposes. Solar water pumping systems for irrigation are becoming increasingly popular due to their cost-effectiveness and the ability to quickly add a producing well anywhere.

Do solar water pumps save money?

Solar water pumps are powered by solar energy, which means you can save money by not having to run electricity to run a well pump in remote areas. And like all solar-powered devices, solar water pumps don't have any ongoing operational costs. This means that once the initial investment is made, the cost of pumping water becomes negligible.

Convenient Solar Water Pumps in Kenya are available at Aqua Hub for the fair price range of KES 30,000 to KES 150,000. NAIROBI: 0790719020 | ELDORET : 0759372241. Call : +254790719020. ...
