South Africa Industrial and Commercial Photovoltaic Folding Container House Wholesale

Sustainable Power Generation (Pty) Ltd recently introduced its new containerised solar power solution - SustainSolar - for the African market. The South African-based clean energy company specialises in containerised power generation equipment, and is already known and trusted as SustainPower for its gas-to-power solutions.

The South Africa Photovoltaic Industry Association reported that the new PV systems installed in the country generated a total capacity of 1,313 MW. Of the new installations, about 813 MW of them were dedicated for utility scale and the remaining 500 MW were from distributed generation arrays.
