Who is ups & emergency power backup company?

We are a specialist Uninterruptible Power Supply (UPS) and emergency power backup Company, with over 250 years of combined UPS and battery backup experience.

How does a UP1000 ups work?

The UP1000 series UPS employs high frequency on-line technology for the most critical applications. The UPS uses the incoming mains to supply power to the inverter to charge the batteries and supplies power to the load. When the utility supply isn't available, the inverter continues operating but now sources power from the battery.

What are the different types of uninterruptible power supplies?

Our range of Uninterruptible Power Supplies comprises Three Phase Power UPS's such as the FORTE series to our UP3000-G4 UPS as well as our single phase UPS backup power solutions for small-medium-large enterprise and the Sinewise Inverter Series for the home / home-office.
