

Swaziland portable outdoor power brand

Are portable power stations worth it?

Portable power stations are more powerful and cost effective than ever before. And, thanks to advances in lithium-ion battery technology, they're also lighter and more compact. Whether you've been dreaming of van life or are building out your emergency kit in advance of that next blackout, there is a power station that will meet your needs.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. What to Know Before Purchasing a Portable Power Station

Are LiFePO4 power stations portable?

With the new LiFePO4 battery chemistry, I personally found that units in the 1000 Wh range were fairly portable, while those that were closer to 1500 Wh were more of a chore to pick up and move around. Power stations that stood out as especially difficult or easy to move around have been noted in the individual reviews.

Is the Ugreen PowerRoam a good power station?

The Ugreen PowerRoam ticks all the boxes. It has the same standard battery chemistry as the other power stations in my test, similar price point and build. It was one of the faster units to recharge and it had excellent efficiency during the high-wattage test with the dehumidifier.

What is the IP67 rating for a portable power station?

This unit has a rating of IP67, which is beyond impressive for a portable power station. Ingress Protection (IP) Testing is conducted by a third party to evaluate how well a product protects against dust and water. The first digit represents its dustproof rating, and the second digit represents its waterproof rating.
