

What is a TCM lithium ion battery?

TCM lithium-ion battery cell types are prismatic NMC (Lithium Nickel Manganese Cobalt Oxide) chemistry and are packaged in a metal casing. A primary feature of prismatic Li-ion batteries is that they offer pressure vents that function to alleviate internal pressure which works to avoid unpredictable explosions in a warehouse or on-site.

Can you use TCM batteries on a forklift?

TCM Li-ion batteries have been specifically engineered for use with TCM forklift trucks to ensure safe operation, meaning the truck can even shut itself down automatically if needed. Simply connect the charger and the truck will automatically shut down ready for charging.

Can Ni-MH batteries be repaired?

We can recell & repair Ni-Mh and Ni-Cad battery packs. All Battery refurbishments are completed in our UK Workshop - To book your battery refurbishment, please contact us below. We're sorry! No Data Sheets currently available.

Who makes lithium ion batteries?

Aceon is a UK distributor of Lithium Ion batteries and manufacturer of lithium ion battery packs. The company's team of engineers who are experienced in lithium ion battery technology also assist clients in selecting the most suitable Lithium ion battery cell for their application.

What technologies are used in a battery pack?

We design, manufacture, and refurbish battery packs using various technologies, including Nickel Metal Hydride, Nickel Cadmium, Alkaline, Sealed Lead Acid, Lithium-Ion, and Lithium. Our battery packs are manufactured using industry-leading cells and components.

What are lithium-ion batteries?

Lithium-ion batteries are a type of rechargeable battery. They have a high energy density (meaning that they can store lots of energy), no memory effect (they don't need to be fully discharged before charging), and a low self-discharge.
