

Back in March, Energy-Storage.news heard from Tokcan that the energy storage market in Turkey was "fully open". That came after the country's Energy Market Regulatory Authority (EMRA) ruled in 2021 that energy companies should be permitted to develop energy storage facilities, whether standalone, paired with grid-tied energy generation or for integration ...

Battery storage technology for the project is being provided and integrated by Fluence. The company's growth and market development director for the EMEA region, Julian Jansen, told Energy-Storage.news that Ireland ...

MITECO launched two programmes, with the first one seeking either standalone projects or thermal energy storage projects with a budget of EUR180 million, of which EUR30 million for thermal energy storage alone. The second programme is aimed at pumped hydro energy storage (PHES) with EUR100 million allocated for that technology.

In December last year, at the COP28 talks, GEAPP launched the Battery Energy Storage System Consortium (BESS Consortium), through which 11 countries, including India, pledged to facilitate 5GW of energy storage ...

Greenergy's Matarani solar plant in Peru. Image: Greenergy Renovelables. Spain-based developer and IPP Greenergy has detailed its investment plans for 2023-2026, totalling US\$2.6 billion including what it claimed is the "largest BESS in the world" in Chile.

That's Turkmenistan for you - the dark horse of Central Asia's energy transition. Their new grid energy storage project isn't just about keeping lights on; it's about rewriting the rules of an oil ...

Utility Zen Energy has acquired a large-scale 2.5 hour battery storage project from developer and IPP RES in Australia, with a forecasted commercial operation date (COD) of end-2024. Zen has acquired the 111MW/270MWh Templers Battery Project from RES, located north of Adelaide in South Australia, the utility's first battery storage project.

Image: Trina Storage / Trinasolar ISBU. PV module manufacturer Trina Solar has deployed its first energy storage project in Italy, for its project development arm. Subsidiary Trina Storage has commissioned the 9.3MWh battery energy storage system (BESS) project in Torre di Pierri, Italy, in the province of Taranto, southeast Italy.

The CAES project is designed to charge 498GWh of energy a year and output 319GWh of energy a year, a

round-trip efficiency of 64%, but could achieve up to 70%, China Energy said. 70% would put it on par with flow batteries, while pumped hydro energy storage (PHES) can achieve closer to 80%.

Update 25 March 2021: NGK Insulators responded to a request for more info from Energy-Storage.news and confirmed that the NAS battery storage system will be sited at the 5MW Uliastai solar PV project which is included in the ADB's Upscaling Renewable Energy Sector project for Mongolia. According to an October 2020 Procurement Plan published by the ...

The project in Turna, Xinjiang, China. Image: Lan Shengwen, a reporter from Gaochang District Media Center. A 100MW thermal solar and molten salt energy storage system in Xinjiang, China, is set to be completed and grid-connected by the end of the year, part of a project which has also deployed conventional solar PV.

MISO modelled its portfolio with 4-hour lithium-ion battery storage in mind, leading to developers proposing BESS projects of that duration, such as AES Indiana's Pike County project. Energy-Storage.news" publisher Solar Media will host the 6th Energy Storage Summit USA, 19-20 March 2024 in Austin, Texas. Featuring a packed programme of ...

A 10MW PV plant in Germany. Image: Enerparc. German independent power producer (IPP) ILOS Projects has secured a EUR500 million (US\$531 million) structured finance facility from global energy and infrastructure investor EIG, intended to fund ILOS's plans for over 2GW of solar and battery storage capacity by 2026.

The country's first hybrid solar-wind power plant with a capacity of 10 megawatts will be built in Turkmenistan. Energy Minister Charymyrat Purchekov presented a new environmental project ...

Energy-Storage.news" publisher Solar Media will host the 1st Energy Storage Summit Asia, 11-12 July 2023 in Singapore. The event will help give clarity on this nascent, yet quickly growing market, bringing together a community of credible independent generators, policymakers, banks, funds, off-takers and technology providers.

Rendering of the Edwards Sanborn solar-plus-storage project in Kern County, California. It will have a 2,445MWh battery storage system, one of the biggest in the world, though only 28% of this is part of PG& E's procurement. ... The CPUC has also approved the 2020 energy storage plans for all three investor-owned utilities, PG& E, SDG& E and SCE ...

A roundup of the biggest projects, financing and offtake deals in the energy storage sector that we have reported on this year. It's been a positive year for energy storage in 2023, with new markets opening up and supply chain bottlenecks and price spikes for battery energy storage systems (BESS) easing, though challenges remain.

This Commission department is responsible for the EU's energy policy: secure, sustainable, and competitively priced energy for Europe. Skip to main content ... Commission welcomes new ENTSOG report confirming the importance of storage last winter and need to start refilling as soon as possible. 1 min read; News announcement; 8 April 2025;

Recently-formed energy storage developer Ingrid Capacity is building a 70MW battery storage facility in Sweden for a delivery date as early as H1 2024, the largest planned in the Nordic country. ... Idaho Power gets ...

The project, which is central Asia's first renewable project to be built with a co-located battery energy storage system (BESS), will include a storage capacity of 63MW. It will be built by Nur Bukhara Solar PV LLC FE, a new project company owned and controlled by Masdar, which won a bid to build the project in December 2022 by offering to ...

100MW/200MWh Independent Energy Storage Project in China This project is a utility-scale energy storage plant with a capacity of 100MW/200MWh, covering an area of 18,233 square meters. It comprises 28 sets of ST3440UX*2-3450UD-MV liquid-cooled lithium battery system, 1 set of ST2750UX*2-2750UD-MV liquid-cooled lithium
